

Cabin Spec

- Super insulated GRP walls, roof, floor with high performance structural foam
- Double glazed windows, with opening window to front elevation
- Double glazed door with self closer
- Forklift pockets built into steel subframe
- Weight: 330KG
- Non-slip flooring
- Worktop under opening window

240V AC System

- LED lighting with PIR motion control
- Infrared heating with push button timer
- USB charging
- 3 pin socket restricted to 1-amp
- External 16-amp connector
- If heating required in the winter the 240V system can be run alongside the 12V to give heating by connecting a portable battery pack, hydrogen/ hybrid/diesel generator

12V DC System

- LED strip light with PIR motion control
- USB charging
- Powered by roof mounted PV panel and battery storage
- Efficient solar solution for light and charging for up to 12 months of the year
- If no heating is required, this can potentially offer a year-round standalone solution with no other power input
